Burn Down Los Angeles

Rival Sons

- I come from the mountains, down to the water.
- I come to drink from the dreams of your sons and daughters,
- I come from the summer off of the rails,
- With my hammer in hand about to hit it on the nail.
- I'm gonna burn down Los Angeles, burn down Loas Angeles.
- I come for revenge for my broken dreams.
- I didn't come to wait tables or park limousines.
- I come to get up from my hands and knees.
- I come to steal the honey from the killer bees.
- I'm gonna burn down Los Angeles, burns down Los Angeles
