

End of Forever

Rival Sons

The land separates from itself
And they call that one an earthquake
One becomes two people living for themselves
We call that one a heartbreak

There was a feeling that I used to know
We used to be closer than together
We said we'd never let each other go
Well this is the end of forever

Now, the end of forever (this is the end of forever)
This is the end of forever
This is the end of forever

I'd like to say I'm sorry
Sorry that we ever met
Both of us are ready to cut down the best
And the worst thing we've ever had

There was a feeling that I used to know
We used to be closer than together
We said we'd never let each other go
Well this is the end of forever

Now, the end of forever (this is the end of forever)
This is the end of forever
This is the end of forever
This is the end

This is the end of forever
This is the end of forever
This is the end of forever
