

Lucky Girl

Rival Sons

I got a feeling about you
I got this feeling about you

Feel the sunlight on your face
Just realise we can't replace
The time, it seems to slip away
I look at you and then I knew
Melody, you're such a lucky girl

I got a feeling about you
I got this feeling about you

Colors fill the open sky
The wind has blown in warm July
I cannot find a reason why
My mind is leaving me behind
Melody, you're such a lucky girl

I got this feeling, oh yeah
I got a feeling about you
I got this feeling about you
