

Party At The Beach

Riverdales

There's a party at the beach tonight
There's a party at the beach tonight
We're gonna ride in the GTO

There's a party at the beach tonight
There's a party at the beach tonight
Slip in the back seat and let's go

Yeah, everybody's gonna be there
So don't park at City Hall
It's gonna be a blast
And that girl that you always talk about
Said that she'd be there too
So, if you wanna (???)

There's a party at the beach tonight
There's a party at the beach tonight
When we arrive in the GTO

There's a party at the beach tonight
There's a party at the beach tonight
Slip in the back seat and let's go

Yeah, everybody's gonna be there
So don't sit there all alone
It's gonna be a gas
And that girl you always talk about
Asked if you'll be there too
So, if you wanna (???)

There's a party at the beach tonight
There's a party at the beach tonight
There's a party at the beach tonight
There's a party at the beach
