

# I Want You

Rivermaya

I don't know why, I can't deny  
There's something in the way you close your eyes  
I can't resist even if I try

I want you in my arms tonight  
It's not right to just ignore you  
And let you escape my might

I can't keep sane  
Can you feel my pain  
Impure thoughts running in my brain  
It's flying like an aeroplane

I want you in my arms tonight  
It's not right to just ignore you  
And let you escape my might
