

# I Don't Wanna Be (A Superhero)

Roadrunner United

They came from the sky  
And they came from the sea  
They came from the inside of a television screen  
Babies of bastards  
Breeding as one  
The fate of Earth is doomed  
I quit! I'm done!

Some kind of darkness come creep over me  
On what legal meat does our Caesar do feed?  
So we could never be this free...no!

I don't want to be a superhero  
Never really cared about society  
I don't want to be a superhero  
I don't care so don't call me

They came from the sea  
And they came from the sky  
Captain America is going to die  
Babies of bastards  
Breeding for fun  
The fate of Earth is doomed  
Get your gun, I'm done

Some kind of darkness come creep over me  
On what legal meat does our Caesar do feed?  
So we could never be this free...no!

I don't want to be a superhero  
Never really cared about society  
I don't want to be a superhero  
I believe in a conspiracy

Some kind of darkness come creep over me  
On what legal meat does our Caesar do feed?  
So we could never be this free...no!

I don't want to be a superhero  
Never really cared about society  
I don't want to be a superhero  
I don't care so don't call me
