

Metal Breed

Rob Rock

Metal Breed

I could hear the metal rising
From the land across the sea
A wave of thunder in the darkness
Grinding rhythm, scorching steel
FM radio was rockin'
Building armies on the air

Revolution that is still evolving
Standing tall the metal breed
Generations of the anvil pounding
You can't kill the Metal Breed

Burning up the next frontier
Images that stir your mind
Moving pictures with the music
Winning masses all the time
Music television rockin'
Legions turning in the show

Revolution that is still evolving
Standing tall the metal breed
Generations of the anvil pounding
You can't stop the Metal Breed

Digital now cast in concrete
Spreading out like a disease
Every download on computer
Exhilarate the metal scene

Revolution that is still evolving
Standing tall the metal breed
Generations of the anvil pounding
You can't kill the Metal Breed

Revolution that is still evolving
You can't stop the Metal Breed
