

Savior's Call

Rob Rock

Born in misery
Silver spoon in hand
You can't find happiness
Lost in Neverland

Life will bring you to your knees
You will search but you won't see
You'll never find what you're looking for
Until you hear the Savior's Call

Emptiness and pain
Cradle to the grave
Tasting everything
Just to find relief

Life will bring you to your knees
You will search but you won't see
You'll never find what you're looking for
Until you hear the Savior's Call

In the night when darkness falls
Silence screams until you let it go
Reach the point of no return
Crying out for someone to take the throne of our life

Life will bring you to your knees
You will search but you won't see
You'll never find what you're looking for
Until you hear the Savior's Call
