## **When Darkness Reigns**

Looking for answers deep in the night Caught in the shadows hiding from sight Losing my senses out in the cold When I felt the power breaking the hold

Fight to survive, you'll stand or fall You're dead or alive inside this war

When Darkness Reigns, you'll feel the agony The price is paid, if only eyes could see

Hiding your secrets under your skin Living a lie you never can win Get out of your prison open the door You're playing with fire like I was before

Fight to survive, you'll stand or fall You're dead or alive inside this war

When Darkness Reigns, you'll feel the agony The price is paid, if only eyes could see When Darkness Reigns, you'll face the enemy Saving grace, from the hand of destiny

Running, hiding, trying to fill the spaces Living, dying, time has quickly faded

Looking for answers deep in the night Caught in the shadows, living a lie

Fight to survive, you'll stand or fall You're dead or alive inside this war When Darkness Reigns, you'll feel the agony The price is paid, if only eyes could see When Darkness Reigns, you'll face the enemy Saving grace, from the hand of destiny
