

# Deceptacon

Robbie Williams

Microwave yourself today  
Save you for a rainy day  
Hello deceptacon  
This will not be going away

From all us there  
To all over here  
We wish you all of the best  
All of the year, she said

Well he's never been quite right  
And I know  
We'll be steppin' on eggshells tonight

And all over Britain  
We wait for permission  
To form another queue  
We stand in position  
Though somebody's missing  
And that somebody's you  
But what can I do?

I love you but I don't like you right now  
Was all she had to say  
Hello deceptacon  
I will not be going away

From all of us here  
To all over there  
We wish you all of the best  
All of the year, she said

Only you can make it right  
But I've stopped  
Stepping on eggshells tonight

And all over Britain  
We wait for permission  
To form another queue  
We stand in position  
Though somebody's missing  
And that somebody's you  
But what can I do?

Send my best to all concerned  
I know I've been a gracious host  
Goodbye deceptacon

Who are you?  
Who are you?  
Who are you?  
What are you, to me?  
What can I do for you?  
What can you do for me?  
Who are you?  
What are you, to me?
