

# Last Days of Disco

Robbie Williams

Stand by me, I've been stood by you for ages  
Stay calm and carry on  
Maybe nothing's wrong  
Is it the comfort of, dis-information or  
Is it the freedom that you fear  
Said I'm the angel of liberation, love  
For a second I believe her

I'm all you'll hear, ahhhhh  
While you're here, ahhhhh

Don't call it a comeback  
Look what I invented here,  
I thought it was easy  
They can't take it away from us,  
The last days of disco

All raved out, bitter is the pill of devotion  
Read between the noise, all you disco boys  
The fascination of,  
A boy and girl in love,  
For a second I could see that  
In the mir above,  
The human animal or a creature that I feel

I'm all your here  
While you're here  
Don't call it a comeback  
Look what I invented here,  
I thought it was easy  
They can't take it away from us,  
The last days of disco  
The last days of disco  
The last days of disco

I'm all your here  
While you're here  
Don't call it a comeback,  
We'll hold an event in here  
This space is beautiful  
I'll decide when it is over  
So don't call it a comeback,  
Look what I invented here  
I thought it was easy  
They cant take it away from us,  
The last days of disco,  
The last days of disco,  
The last days of disco..
