

Super Tony

Robbie Williams

Cocaine....cocaine
Look at the mess we all made of ourselves
I don't remember it well
Everyone tryin to be someone else
I was someone else as well
But its alright
when you're gettin the show right...Ahhh
cocaine.....cocaine

Can you recall all the cubicle scenes
Didn't we talk well
Professional Northerners we might have been
We got a new walk as well
But its alright,
when you get your stroll right...Ahhh
cocaine....cocaine

Stuck in a lift with a vacuum nose pipe
Stuck??with thefront, it's not right
super tony goin too far tony

Yes its all about me again boys
This is the part where I do
super tony goin too far tony
cocaine....cocaine

Isn't it nice that our fingers make knees
Lets throw a mall night
I got a nose bleed & nobody cares
Up with the big heads
but its alright,
when your so right

Stuck in a lift with a vacuum nose pipe
Stuck?? with the.....front, it's not right
super tony goin too far tony

Yes its all about me again boys
This is the part where I threw
super tony goin too far tony

Thou art whollier than I
but didn't I do well
Shoveling snow with the best of the worst
People you know well
But its alright
cuz your snow white

Stuck in a lift with a vacuum nose pipe
Stuck?? with thefront,it's not right
super tony goin too far tony

Yes its all about me again boys
This is the part where I threw the whole thing away
super tony goin too far tony
cocaine.....cocaine
