

# Freedom And Love

Robert Gawliński

Just believe me it's time for us,  
Give it up, don't be afraid,  
Find it in your heart - this is our union,  
I swore by the candlelight, to take you far away,  
Find it in your heart, once - never again.

Freedom and love, blow tears away,  
All shooting stars, all in your hands,  
And you could try, to call your dreams,  
You can just feel, that you are free.

I'll take you in my arms, tight as never before,  
We slowly drown in sleep - this is our union,  
We fly between two moons, free as never before,  
Golden parts around once and for all.

Freedom and love, blow tears away,  
All shooting stars, all in your hands,  
And you could try, to call your dreams,  
Just you can feel, that you are free.

Believe me it's time for us,  
Give it up don't be afraid,  
Find it in your heart, this is our union,  
I swore by the candlelight, to take you far away,  
Find it in your heart, never again.
