Cool
Wassup y'all?
Okay so this is the record
It's gonna be live
So you can act like you're at a club and if you like stuff you
can go "oooooh"
If you don't like stuff you can go "oooooh"
And so basically the premise of this record we're doing; uh most
of it is, you know, coming from my Black Radio records
I don't know how many of you have my Black Radio album

Thank you guys so much
So winning R&B album of the year grammy and stuff

Thank you so much!
You guys are amazing

Umm so coming after that I felt like doing a trip record now
But I wanted to do... I didn't want to, you know, go straight j
azz, you know, off the top, Boom out of nowhere!
So I wanted to do a nice happy medium and do songs that I like
basically from my iPod, you know
So these are different songs from different genres, different a
rtists, um songs that I just like to listen to
So we're going to play some of those mixed in with some stuff t
hat I, you know, trio stuff that we've played back in the day b
ut we never recorded
Um these guys playing with me are on my original trio albums wh
en I first got signed to Blue Note I did two records; uh "Strai
ght up trio"; "Canvas" and "In My Element"
These are my original guys
And it's Vicente Archer on the bass

Um on the drums it's Mr. Damion Reid
