

Paths

Robert Miles

how can she sleep,
with the sound out in the street
she is gonna leave
while he's asleep
the night's been calling me out
to see the view
there, just me again
wake me up!

many paths to take
i hope to find that freedom again
believe we will and many more
dream free

many paths to take
i hope to find my freedom again

how can he sleep,
with the sound out in the street
she is gonna leave
while she's asleep
the night's been calling me out
to see the view
there, just me again
wake me up!

many paths to take
i hope to find my freedom again
believe we will and many more
dream free
many pahts to take
space
i hope to find my freedom again
believe we will and many more
freedom in a real dream
