

Know by Now

Robert Palmer

You ought to know by now

Baby when our hearts awoke
Think of all the rules we broke
In the name of love we hoped
Little did we know

Darling all the time we spent
Ignoring all the consequences
And hiding from big evidence
Hoping things would change

But the yearning grew
like the loneliness of a castaway
To be near to you was the only thing
in my heart each day
Keeping me alive
till your rescue came

Honey you mean everything to me
You ought to know by now
Love means everything
You ought to know by now
Only love can bring happiness

Wishful thinking spent in vain
What to loose and what to gain
All the guilt and all the pain
seemed to come away

And baby when our hearts awoke
Think of all the rules we broke
In the name of love we spoke
Little did we know

But the hope was there
like a ray of sun on a cloudy day
Any change from impossibility
to the only way
Love can conquer all
And its here to stay

Honey you mean everything to me
You ought to know by now
Love means everything
You ought to know by now
Only love can bring happiness

You ought to know by now
Love means everything
You ought to know by now
Only love can bring happiness

You ought to know by now
You ought to know by now
You ought to know by now
You ought to know by now
