

# You're Gonna Get What's Coming

Robert Palmer

You came up on me like a landslide  
Once in awhile I get taken like that  
And I like it  
I've got a thunderbird parked right outside  
Give me a minute to finish this thing  
And we'll light it.  
In all this heat it's a job keeping cool  
Oh yeah  
And I could fry an egg on you  
You came up on me like a landslide  
Once in awhile I get taken like that  
And I like it

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

I hope that you're half as intrepid  
As you make out  
More often than not, I'll bet  
You never got what you asked for  
Keep on pouring until you hear me shout  
And turn up the sound  
If you want me to drive any faster  
Caution went out when you walked in the room  
If it never came back it would be too soon

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You came up on me like a landslide  
Once in awhile I get taken like that  
And I like it  
You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming  
You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you

You're gonna get what's coming

You've been asking for it two days running  
You're gonna get what's coming  
You're gonna get what's coming to you
