

## New World...

Robert Plant

In songs we praise a happy landing  
On yet another virgin shore  
Escape the booming world  
Embrace the new world  
I'm here to immigrant  
Across the plains and over mountains  
Put plight to all who came before  
They're barely human  
It's time to move them  
And let them kneel before the sword

Ohh, ohh, ohh  
Ohh, ohh, ohh

Uneducate the noble savage  
The great white father's word is lore  
It's such a pain then to liberate them  
Your poison and the bloody sword

Ohh, ohh, ohh  
Ohh, ohh, ohh

Ohh ohh, uh uh uh, ohh ohh  
Ohh ohh, uh uh uh, ohh ohh  
Ohh ohh, uh uh uh, ohh ohh
