

## Most Of My Life

Robin Gibb

Most of my life, I've had to run away  
Life was a game and I just had to play  
The friends that I thought I had were never there  
You look for love, but you don't know where  
And I'm in a race that could be any place  
And when I was born, my life had slowly worn  
The woman that I loved had slowly walked away  
I tried to smile but that was yesterday  
And most of my life, I've had to run away  
Life was a game and I just had to play  
The friends that I thought I had were never there  
You look for love, but you don't know where

And most of my life, I've had to run away  
Life was a game and I just had to play  
The woman that I loved had sadly walked away  
I tried to smile but that was yesterday  
And most of my life, I've had to run away  
Life was a game and I just had to play  
The friends that I thought I had were never there  
You look for love, but you don't know where  
Most of my life and most of my life  
And most of my life, and most of my life  
And most of my life
