

# Remedy

Robin Gibb

I hear you callin ', callin' my name  
You see me falling' for your crazy games  
You got my money, you got my love that's fine  
Oh, you got my body  
You got my health in mind

You're the remedy  
You do what you do  
You're the recipe  
I don't wanna find it out  
You're the remedy  
You're the drug that I need

They don't thank you when you're out at night  
You got so many lovers, oh  
Can't imagine what is wrong right  
You got so many lovers, oh

Why do you tell me that love has a price  
Too much emotion in my sacrifice  
I call your number, you check my vital signs  
Oh, you're under pressure  
You got my heart in mind

You're the remedy  
You do what you do  
You're the recipe  
I don't wanna find it out  
You're the remedy  
You're the drug that I need

They don't thank you when you're out at night  
You got so many lovers, oh  
Can't imagine what is wrong or right  
You got so many lovers

You got my money  
You got my love that's fine  
Oh, you got my body  
You got my heart in mind

You're the remedy  
You do what you do  
You're the recipe  
I don't wanna find it out

You know I wonder where you go at night  
Doesn't matter if it's wrong or right  
Even if it kills me

You're the remedy  
You do what you do  
You're the recipe  
I don't wanna find it out  
You're the remedy  
You do what you do  
You're the recipe

I don't wanna find it out  
You're the remedy  
You do what you do  
You're the recipe  
I don't wanna find it out
