

Kill the Fire

Robin Schulz

Your eyes are dim
I need the real love
Won't make you drift
Into the morning dawn
And what got me high has left me so low, so low
You keep your space
And [?]
I drink the sun
I drink the world in
And what got me high has left me so low, so low

You can't kill the fire while it's burning (Kill the fire while it's burning)
You can't kill the light in the dark (Kill the light in the dark)
You can't kill the fire while it's burning (Kill the fire while it's burning)
You can't kill the light in the dark, in the dark

In the dark
You can't kill the light in the dark, in the dark

As you fade out
Our sunsets dying
So tell me who
And what you're fighting
What got me high has left me so low, so low
Those sleepless nights
[?] child
You lock me out in your denial
What got me high has left me so low, so low

You can't kill the fire while it's burning (Kill the fire while it's burning)
You can't kill the light in the dark (Kill the light in the dark)
You can't kill the fire while it's burning (Kill the fire while it's burning)
You can't kill the light in the dark, in the dark
You can't kill the fire while it's burning
You can't kill the light in the dark
You can't kill the fire while it's burning
Burning, burning, burning, burning
Burning, burning, burning, burning
Burning, burning, burning, burning
In the dark

You can't kill the fire while it's burning
You can't kill the light in the dark, in the dark
You can't kill the fire while it's burning
You can't kill the light in the dark, in the dark
In the dark
You can't kill the light in the dark, in the dark
