

Live and Let Live

Robin Schulz

Dancing in the moonlight
Spinning down the hall
Don't care what we look like
We are who we are
You and I got something
Anger could never draw
Bound to make our escape
Like fireflies we glow

Born to enlighten lovers
Come here, we're face to face
We know why we came
Don't be alone, be alone, be alone, be
Don't be alone, be alone, be alone

Driving in the desert
We're high above the law
Say goodbye you cruel world
Leave them at the door
I would like to watch you being what you are
Hard to tame a wild soul
Like fireflies we glow

Born to enlighten lovers
Come here, we're face to face
We know why we came
Don't be alone, be alone, be alone, be
Don't be alone, be alone, be alone

Don't be alone, be alone, be alone
Come here, we're face to face
We know why we came
Love by the way
L-l-l-love by the way
