

Again

Rock Kills Kid

I've waited a long time
To look into your eyes
Again for the first time
I know, yes, I know that

You'll come running back to me
Maybe someday I do believe
You'll come running back to me, I believe

Your heart is mine
I've had it a long time
Even through this time
I know, yes, I know that

You'll come running back to me
Maybe someday, I do believe
You'll come running back to me, I believe

I speak to you in my head every night
Making you up in my head
I think I can make you understand again
Maybe someday

I've waited a long time
To look into your eyes
Again for the first time
I know, yes I know, that

You'll come running back to me
Maybe someday I do believe
You'll come running back to me, I believe

You'll come running to me, to me
You'll come running to me, to me
You'll come running back to me, I believe
You'll come running to me, to me, to me
