

I Wanna Know What I Wanna Know

Rocket from the Crypt

Bullheaded boy with nothing to show
My ears are deaf to what I don't know
The older I get stupidity grows
Yeah I don't care, I don't wanna know

I know it doesn't look so hot
It wasn't my best shot
Oh yeah if you only knew
That again and again we fall

I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know

Curse what I know nothing about
It doesn't make you right
Oh yeah if you only knew
That again and again we fall

I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know
I wanna know what I wanna know
