

# Always Love

Rockie Fresh

Yeah, Lord knows I've been going through some real shit  
Always been selective of the people that I chill with  
Growin' up I couldn't go on every field trip so I'm tryna see the whole world while I live, yeah  
It's a couple ones that got my back, some people switch  
Y'all ain't act like that, I got respect for that  
We know the label f\*cked up on my last shit, still we got past it

So it's always love  
Every time that I see ya, so it's always love  
Come through when I need ya, it's always love  
Always love  
Never changed up, it's always love

Man, you know a nigga always out of town, when I came back around it was always love  
Shit, and even when it ain't Thanksgiving, fam' cookin' in the kitchen and it's always love  
Now we tryna get a whole plate, but before I had cake it was always love  
Shit, B couldn't even buy the ounce, but he brought through a eighth it was always love  
And that's every time I drop my shit, it's like feelin's of the lights get switched  
Like, why it bright like this?  
Outsiders tryna box me in, but it get hard tryna fight these hits, good aim, won't miss

And I really want more out this lifetime, I'm just prayin' that it happen all in the right time  
Young niggas can't brake for a stop sign, God on the hotline

So it's always love  
Every time that I see ya, so it's always love  
Come through when I need ya, it's always love  
Always love  
Never changed up, it's always love

Man, I'm out in L.A. without a room, Daley let me get the couch it was always love  
Shit, and even when all the money spent, Brie would help me with the rent it was always love (Ayy)  
Everything was goin' all bad, girl had hit me with a bag it was always love  
Shit, I wish that I could give it all back, I'ma take 'em all across the map, always love

Come through, baby  
Oh yeah, come through when I need ya  
Yeah, always, always love  
Every time that I see ya, it's always love  
Come through when I need ya, it's always love

Always love  
Never changed up, it's always love (Oh yeah)  
Always love (Hey)  
Always love (Oh)  
Always love (Yeah)  
Always love
