

## As Far As You Let Me

Rockie Fresh

Is it really meant to be  
Is she the one that's meant for me  
Should I act on what I feel  
Cause she's the closest thing to real I've seen  
I wonder what she's waiting for  
I wonder what were waiting for  
I don't want to push the limit  
Cause I hear that less is more  
But I want to tap into you  
Take our love to something new  
Cause I'm sick of staying in this spot  
So now, so now, so now

I wanna make a move  
I really wanna go  
If you want me to stay  
Baby just let me know  
I can only go as far as you let me (2x)  
I wanna make a move  
I really wanna go  
If you want me to stay  
Baby just let me know  
I can only go as far as you let me (2x)

As far as you let me (4x)  
I only wanna go as far as you let me (4x)

See I can take it higher baby  
I can be your dream  
I just want to touch you baby  
Right here on the [?]  
I can take you higher baby  
Only if you let me  
I can take you higher baby  
Only if you let me

I only wanna go  
I only wanna go as far as you let me (2x)
