

Beautiful Morning

Rod Stewart

Beautiful morning
On this beautiful morning
On this beautiful morning
On this beautiful beautiful morning
Here with you

Driving down the highway on a friday evening
Me and my lady had stopped for leaving
Early stop leave the city behind us
Good to be the kid that cares a lot
We got just us

We going starbucks a doner and a coffee
That's when I notice it was all around me
And do today and there's gotta be a winner
Rolling out the summer we're tired of winter

Still left on we're climbing all of our years
Still had hair on a true to fear
Doves are singing not a cloud in the sky
Oh my God, ain't it good to be alive

Beautiful morning
On this beautiful morning
On this beautiful morning
On this beautiful beautiful morning
Here with you

No hesitation and we check into our hotel
Down about a woosh about a mile at the disco
Up toss the bed in a room that I seen you
I just sat here loving that person in me

Don't you worry 'cause I'm back in my case
Get down to the beach and let the sun on your face
Doves are singing not a cloud in the sky
Oh my God, ain't it good to be alive

Beautiful morning
On this beautiful morning
On this beautiful morning
On this beautiful beautiful morning
Here with you

'Cause we keep tryin going fast
Let's make everything last, oh ye
Well singing, dancing, jumping around
We cook, get drunk we all fall down
Go through love, no regrets

Beautiful morning
On this beautiful morning
On this beautiful morning
On this beautiful beautiful morning
Here with you
