More Of A Man

Rodney Carrington

She likes to go hunting with her buddies She once killed a dear with just a stick She likes those smoky bars and rock gut whiskey And pull my fingers still her favorite trick

She likes Hormel chilly on her ice cream yeah With a jalapeño pepper on the side
She once fried bacon with her shirt off
Chopped up an onion and didn't even cry

Hey shes more of a man then I'll ever be
Shes done things that most men can't believe
She chews tobacco swallows the juice
Her real names shela but they call her moose
Shes more of a man then I'll ever be
It's plaine to see
She put the he in she
Shes more of a man then I'll ever be

She likes her old job down at the factory Even though she lost an arm in 83 She spent a little time in fulsome prison And Johnny Cash is tattooed on her knee

Shes never rode a bull that's ever throne her Hell she rode one all the way through tennasee Shes never met a man whose ever owned her Although I think shes got the hots for me

Shes more of a man then I'll ever be
Shes done things most men wont believe
She eats beef jerkey by the ton
And stares directly at the sun
Shes more of a man then I'll ever be
It's plain to see
She put the he in she
Shes more of a man then I'll ever be
