

# Breaking Down Paradise

Roger Daltrey

Can you hear that sound  
It's all around you and me  
There's a voice  
It searched and found you  
What can it be?  
It's like thunder and lightning  
Speaking your name  
And this man of fire  
Could be burnt in the flame  
You know what you do  
What you do-

You're breaking down paradise  
And I'm the one who pays the price  
Any way I play or lose  
Any way that I throw the dice  
You're breaking down paradise  
You're breaking down paradise

You walk away  
And turned the day  
Into night  
The cold and lonely night  
Out of the silence  
There's a hurricane  
And all around me  
It's burning again  
It's burning again and again

It's like thunder and lightning  
Speaking your name  
And this man of fire  
Could be burnt in the flame  
You know what you do  
What you do
