

# Come And Get Your Love

Roger Daltrey

How long must I sit around waiting for you?  
Think of all the heartache you've been putting me threw  
You must have a soul but it don't show  
Come on and love me or let me go.

Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
Before I give it away  
(Come and get it)

Your a devil witch, and I'm hypnotized  
Oh woman I can see right threw your eyes  
Here's something for you (right here) take it from me  
Why don't you love me or set me free.

Oh come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
Before I give it away  
(Come and get it)

Come and get your love, get your love

I'm holding on  
To your love for so long  
Could be I'm tired of the face I admire  
So why don't you say  
Just go away

Oh come and get your love  
(Get your love)  
Get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
(Get your love)  
Come and get your love  
Before I give it away  
(Come and get it)
