

How Far

Roger Daltrey

Most of my life I've been living on the road
And then I've realized that suitcase ain't my home
'Cause I've got a girl, she won't leave my mind alone
And if she's listening I hope she understands my song

How it goes:
If you get lonely
All you gotta do is call me
I'll come on the run wherever you are
No matter how far

Oh, bless my soul, I think I'm fallin' again
I miss my woman, now I feel a pain
'Cause if she needs me I'm gonna go, 'cause she's my best friend
'Cause I know I promised her and I remember what I said

I said now:
If you get lonely
All you gotta do is call me
I'll come on the run wherever you are
No matter how far

Long distance travel, this is a hard roller go around
And I count your blessings on the
Good friends I've got just hangin' around
It takes two to be friends, it takes two to be lovers
Know you got it made when you got one that's the same as the other

You know you say:
If you get lonely
All you gotta do is call me
I'll come on the run wherever you are
No matter how far

No matter how far
All you gotta do
No matter how far
