

On and On

Roger McGuinn

The Village kept me hungry, the music kept me high
The party kept on going, till I thought I'd die
And a voice inside sang so sweet and low
It's on and on and on and on and on and on we go
I first knew I loved you when you turned around
And finally gave me courage to get up off the ground
And a voice inside sang so sweet and low
It's on and on and on and on and on and on we go
A voice inside that couldn't lie
It's on and on and on and on and on and on we go
The Village kept me hungry, the music kept me high
The party kept on going, till I thought I'd die
And a voice inside sang so sweet and low
It's on and on and on and on and on and on we go
