

Someone to Love

Roger McGuinn

She's runnin' and he's runnin'
From the ones who want to love them
He's cared and she's scared
Because she doesn't really trust him

She's dreamin' of
Someone to love

All you need all you need
Is someone to love you
All you need all you need
Is someone to love you

She cares and he cares
About the ones who really love them
He knows and she knows
That she'll finally have to trust him

She's dreamin' of
Someone to love

Crossin' that bridge
Can take a little courage
The hardest part
Is knowin' what love is

All you need all you need
Is someone to love you

Daylight will find them
In the arms of one another
Their love will bind them
They'll never need another lover

They're dreaming of
Someone to love
