

Workin' Girl

Roger Miller

My baby is a working girl yes she's a working girl
And there is none sweeter in the whole wide world
Than my sweet little working girl
She's a early rising tantalising I have to have her in by ten
If it's later the to date her would be hard for me again
How I love her but I can't seem to see enough of her
How I love my my my my my baby is a working girl yes she is a w
orking girl
And there is none sweeter in the whole wide world
Than my sweet little working girl yeah
She's a secretary to a very influential guy in town
A nine to five-er man alive I really love to take her round
Yes how I love her but I can't seem to see enough of her
How I love my my my my my baby is a working girl yes she is a w
orking girl
And there is none sweeter in the whole wide world
Than my sweet little working girl
I'm here to tell you that I love her I place no sun or no moon
above her
I tell you I can't get enough of her love working girl working
girl working girl
