

I Love The Living You

Roky Erickson

I love the living you
I love everything that the living you do
I love everything that is the living you
I love the living you

I love the living you
What the living you does to red, white and blue
What the living you does to red, white and blue
I love the living you

Petals stay on the flowers
Throughout the hours
Hot is hot
Cold is cold

Thank God, God bless and thank the living you
For the living you
Thank God, God bless and thank the living you
For everything that the living you do
Thank God, God bless and thank the living you
For everything that is the living you
Thank God, God bless and thank the living you
For the living you

Petals stay on the flowers
Throughout the hours
The leaves
Stay on the tree

I love the living you
What the living you does to purple and blue
The living you flatters everything good
I love the living you
