

The Damn Thing

Roky Erickson

The damn thing, the damn thing
Is still out there
The damn thing, the damn thing
Is still out there

He told me, yes he told me
That I'd never do anything wrong
He told me, yes he told me
It's just a song

Every demon, every demon with the damn thing
Every demon, every demon with the damn thing
Fangs with the damn thing cause I never do anything wrong
Fangs with the damn thing cause I never do anything wrong

He's a killer, he's a killer
Or else he wouldn't have any intelligence at all
He's a killer, he's a killer
Or else he wouldn't have any intelligence at all
He's a killer, he's a killer
He makes me laugh
He's a killer, he's a killer
He makes me laugh all the time

The damn thing bending the bushes down
Thought left it in the wind
The damn thing coming to get you
Thought left it be your friend
He told me, yes he told me, that it's cool, cool, cool

He made it possible for me to sign my name
All the time in the devil's book

That damned thing, that damned thing
Is still out there
That damned thing, that damned thing
Is still out there
