

# We Are Never Talking

Roky Erickson

Though we are in the same place  
We surely know the beauty  
Of each other's face  
Into each other  
We are not loving

Though we know where we are coming  
And the sun for light in heaven is sunning  
Into each other we are never running

We can for long time  
Talk and talk  
But no matter how long we may talk  
We are not talking

We may trip for miles  
And no matter how we travel  
We are never walking  
We are never walking  
We are never walking  
We are never walking  
We are never walking

Though we are in the same place  
We surely know the beauty of each other's face  
Into each other we are not loving

And though we know where we are coming  
And the sun for light in heaven is sunning  
Into each other we are never running

We can for long time talk and talk  
But no matter how long we may talk  
We are not talking

We may trip for miles and miles  
But no matter how we travel  
We are walking  
We are never walking  
We are never talking  
We are never walking  
We are never
