

I just wanna have you around me  
Want you right here by my side  
You bring me pain, you're driving me insane

How come I'm totally addicted  
And nothing else is on my mind  
I don't know what to do  
'Cause all I want is you

You must be the thing  
You're just so good to be true

You are perfection  
And you know I can't find  
No satisfaction  
Without you by my side  
Call it attraction  
Girl, you're just my type  
When I'm done with you I get so high

With you  
I feel like I can fly  
With you  
I rearrange the sky  
With you  
Everything's alright  
When I'm done with you I get so

Even if the whole world calls me crazy  
Let 'em talk, I don't care  
They just don't understand that things got out of hand

That's why I cannot live without you  
You are like oxygen to me  
I knew it from the start, you playing with my heart  
Gotta make your mind 'cause you're a state of the art

You are perfection  
And you know I can't find  
No satisfaction  
Without you by my side  
Call it attraction  
Girl, you're just my type  
When I'm done with you I get so high

With you  
I feel like I can fly  
With you  
I rearrange the sky  
With you  
Everything's alright  
When I'm done with you I get so high
