Rome

Watch disgust and treachery on the gray sheets of rain
Smile while you're wondering why there's only ever pain
Well you die if you worry, die if you don't
Thaw out that chill, or someone else will
Will your Christ stop bleeding
When you lean in for the kill?

I don't believe a word you say (Alles Lügen)
I don't believe a word you say (Alles Lügen)
I don't believe you anyway

Here we are, eating each others' seeds
The soaring joys of the flesh on a drum to beat
Well you die if you worry, die if you don't
Thaw out that chill, or someone else will
Will your Christ stop bleeding
When you move in for the kill?

I don't believe a word you say (Alles Lügen)
I don't believe a word you say (Alles Lügen)
I don't believe you anyway
I don't believe a word you say (Alles Lügen)
I don't believe a word you say (Alles Lügen)
I don't believe you anyway
I don't believe a word you say (Alles Lügen)
I don't believe a word you say (Alles Lügen)
I don't believe you anyway
