

Two

Ron Pope

I don't know how people slow dance,
But I will bring you flowers, and try to make you laugh.
I never was too good at romance,
But I will learn to love you right if you can take a chance.

All the things I need,
They're right here next to me.

If it takes two, let's make it me and you.
If it takes two, let's make it me and you.

My days were cloudy when you showed up,
But then you shined your light on me, now I see through the dark.
I never knew to hope for so much,
And now with blind devotion I want everything you are.

All the things I need,
They're right here next to me.

If it takes two, let's make it me and you.
If it takes two, let's make it me and you.
If it takes two, if it takes two...

I don't know how people slow dance,
But I will bring you flowers.

If it takes two, let's make it me and you.
If it takes two, let's make it me and you.
If it takes two, if it takes two,
If it takes two, let's make it me and you.
Let's make it me and you.
