Since 13

Ronan Keating

You get lost and lonely Do you remember Times we had When we were Young and crazy fools Well we went mad on Sundays We'd go dancing Off our feet Yeah we were Breaking all the rules I've always been With you since 13 So come on up, And come on in You can wear My clothes again Come on up, and Come on in Pretend to we Were way back when I'm still in love With you my friend Still since then You could be In a convent You could be On a New York train You could be Gettin' drunk in Spain, But you're not I've had your heart With me since 13 Okay you might Have not said yes, But you did And I weigh the benefits I'm still in love With you my friend Still since then Still since then A way back when Still since then, Since then, Since then Na na na na I've always been With you since 13 A way back when Still since then
