

I Wanna Love Like That Again

Ronnie Dunn

A whiskey haze in the pale smoke dancin' through your hair
Soft light of the afterglow is lightnin' in the air
Rolled it over, took a slow breath, lit a cigarette
I can't say I know what that was but it was good as it gets

It's like the song plays and the words just rhyme
Right place, right time
One of those things that just kinda happens
When the blind lead the blind
It don't matter, the whys, the whens
I wanna love like that again

You looked at me with that come on smile, 'cause baby I want you
Lead me off into the great unknown, oh what a high
Here in the noise of the quiet still, the crazy mystery
Feelin' baby what it's like to feel, what you just did to me

It's like the song plays and the words just rhyme
Right place, right time
One of those things that just kinda happens
When the blind lead the blind
It don't matter, the whys, the whens
I wanna love like that again

It's like the song plays and the words just rhyme
Right place, right time
One of those things that just kinda happens
When the blind lead the blind
It don't matter, the whys, the whens
I wanna love like that again
Love like that again
