

Peace Love and Country Music

Ronnie Dunn

Peace love and country music
Lord we could sure use some more
Peace love and country music
Simple things worth fighting for
We need them like never before

I'm not a man who has all the answers
Sure don't know what it all means
Every night I kneel down by my bedside
I pray for three things

Peace love and country music
Lord we could sure use some more
Peace love and country music
Simple things worth fighting for
We need them like never before

Every day I'm humbled and thankful
For the things the good lord has done
I know some people are hurting
So we sing for less fortunate ones

Peace love and country music
Lord we could sure use some more
Peace love and country music
Simple things worth fighting for
We need them like never before

Peace love and country music
Lord we could sure use some more
Peace love and country music
Simple things worth fighting for
We need them like never before
Peace love and country music
Lord we could sure use some more
Peace love and country music
Simple things worth fighting for
We need them like never before
