

## Where the Neon Lies

Ronnie Dunn

The cold hard truth  
Lives inside these four walls  
Her shadow's in every room  
She echos down these halls  
Her memory's too strong to fight  
Reality's too hard to face  
So I spend every night  
In a barstool kind of place

Where the neon lies  
Everything's alright  
Whiskey melts a cold goodbye  
The jukebox plays  
And my heart don't break  
Cause I believe that she'll come back in time  
Where the neon lies

She won't find someone else  
Cause she'll miss me way too bad  
In here I convince myself  
She'll want what we had  
Beer after beer  
I chase this whiskey down  
In this buzzin' blue light atmosphere  
The truth don't hang around

Where the neon lies  
Everything's alright  
Whiskey melts a cold goodbye  
The jukebox plays  
And my heart don't break  
Cause I believe that she'll come back in time  
Where the neon lies

The jukebox plays  
And my heart don't break  
Cause I believe that she'll be back in time  
I start seein' things in a different light  
Where the neon lies

Where the neon lies  
Oh, where the neon lies
