

Everywhere I Turn (There's Your Memory)

Ronnie Milsap

I turn on the radio and hear your favorite song
And all day long I hum the melody
When I see that special look
Between two people so in love
I remember how it was with you and me.

Everywhere I turn there's your memory
The image of you burning up inside me
It's almost more than I can do
To think of anything but you
'Cause everywhere I turn there's your memory.

If I go somewhere with friends
Someone's sure to mention you
Then some old familiar feeling steals back in
When I go to sleep at night you're still filling up my dreams
How I wish you could fill up my arms again.

Everywhere I turn there's your memory
The image of you burning up inside me
It's almost more than I can do
To think of anything but you
'Cause everywhere I turn there's your memory...
