

# Remember Fall In Montreal

Roo Panes

Remember fall in Montreal  
Our heads out of the windows  
Canary colored balconies  
Trees pinker than flamingos  
Remember fall in Montreal  
You were back at home and you missed it all  
Well I guess we shared October skies  
As I said good day and you said good night

In my wildest dreams you'd be with me  
In Montreal and the falling leaves  
Take flight light as a feather  
So drift to me, darling, drift to me  
To Montreal and the falling leaves  
We'll be light there together  
We'll be light there together  
Take flight light as a feather

(Drift to me, darling, drift to me)  
(Drift to me, darling, drift to me)  
(Drift to me, darling, drift to me)  
(Drift to me, darling, drift to me)

Well all that morning I was trying to find  
Those fabled oranges from China  
And I nearly burned my eyebrows all off  
With that hot sauce from that diner

In my wildest dreams you'd be with me  
In Montreal and the falling leaves  
Take flight light as a feather  
So drift to me, darling, drift to me  
To Montreal and the falling leaves  
We'll be light there together  
We'll be light there together  
Take flight light as a feather

'Cause oh, you would have loved it there  
Better than a video call (Better than a video call)  
And oh, I wish that we could share  
Our favorite moments, don't we all?  
Don't we all?

Drift to me, darling, drift to me  
(Drift to me, darling, drift to me)  
Drift to me, darling, drift to me  
(Drift to me, darling, drift to me)  
Drift to me, darling, drift to m  
(Drift to me, darling, drift to me)  
Drift to me, darling, drift to me  
(Drift to me, darling, drift to me)  
Drift to me, darling, drift to me  
(To Montreal and the fallen leaves)  
To Montreal and the fallen leaves  
(Drift to me, darling, drift to me)  
Drift to me, darling, drift to me  
(Take flight light as a feather)

Drift to me, darling, drift to me
