

I Wanna Be Your

Room Eleven

I wanna be your TV
Then you would know exactly how to turn me on
With my remote control

'Cause you'd know the functions of all my buttons
'Cause I've seen you doing it!

And oh, I'd love to be your shower in the morning
Or the blankets on your bed
I would keep you warm all night

But most of all, I wanne be...

I wanna be your guitar!
Then you would know exactly how to tune me,
When I am screaming only blue notes!
You'd know where to put your fingers 'cause I've seen you
doing it!
Together we'd write a song and travel around the world
To find people who'd sing along... lalalalalaaa
