

## That Girl Has Love

Rooney

I don't know a lot about her  
But she, she knew a lot about me  
Her family seemed to love her  
If what they say is true  
Her friends all share the good times man  
That girl has love  
That girl has--

I, I didn't have a clue then  
That a kiss would change my whole life again  
She walked into my room  
When i was all alone  
She told me I would date her from September till December

She doesn't know things will never be the same again  
She'll always be seventeen  
That girl has love

She kept all the pain inside  
Now she has got nothing to hide  
At such a young age she took her own life  
Now she's seeing things that come in our dreams at night  
She's a dreamer

That was too real to ever be fake  
That was too strong to ever be forgotten  
That girl has love
