

# The Hunch

Rooney

I could feel it coming  
I could sense that nothing good was happening that day  
I got a funny feeling  
I could smell that something bad was cooking at my place that night  
Something wasn't right

I got the hunch and my hunch don't tell no lies [2x]

Started as a tingle  
Pretty soon those jingle bells were ringing in my ear  
Wanted to ignore them  
Just forget the omen sign that showed up loud and clear that night  
Oh, something wasn't right

I got the hunch and my hunch don't tell no lies [2x]

Premonition - I could see the future all the time  
Recognition - something wasn't right  
I've seen it all like a picture in my mind

I got the hunch and my hunch don't tell no lies

How did I end up here?  
Thought the sky was blue and clear  
Everything was going fine  
I guess I learned my lesson  
Listen carefully to me  
I know things can fall apart over night  
Oh, something wasn't right

I got the hunch and my hunch don't tell no lies, lies  
I got the hunch and my hunch don't tell no lies
