

Green, Yellow and Red

Rosanne Cash

Driving down in highway sixteen I thought I heard a lover scream
There was something on the windshield couldn't see a thing
That's when I heard the siren sing

And there's time to wonder what she said Green, yellow, yellow
to red Time to count those voices in your head Green, yellow, yellow
to red She's got cups for the blood and butter for the bread
Green, yellow, yellow to red So don't drive so fast these brakes are bad

In through the outside out through the in Around the curve into
a spin I went over the edge at Leopard's Bend Who's gonna help
you now my friend

And there's time to wonder what she said Green, yellow, yellow
to red Time to count those voices in your head Green, yellow, yellow
to red She's got cups for the blood and butter for the bread
Green, yellow, yellow to red So don't drive so fast these brakes are bad
